

Here is a list of next steps for you to kickstart your Fix-a-thon journey: -

- A. We recommend you go through the learning resources provided and the Learning Path shared here <link to the doc> as they would be useful for you to ace the next rounds.
- B. As you follow the learning resources, you will need the [Azure Portal](#) for practice. If you don't already have an active Azure Subscription, you can use the Azure Credits Voucher being made available to you. This voucher will allow you to access \$150 Azure Credits for the purpose of learning. You can find a document named "<doc name>" to understand how to redeem the vouchers.

**Note**– Keep an eye on your [consumption of Azure credits](#). It is advisable to *stop* the services you provision when you are not using them, failing which, the services would consume your Azure Credits.

- C. After completing the Learning Path, you can take up the [Exam AZ-900: Microsoft Azure Fundamentals](#). This is an online proctored exam that gives you the opportunity to prove your knowledge of cloud concepts and Microsoft Azure Fundamentals. We are providing a 100% discount voucher that you can use to book your exam via Pearson.
- D. The reference documents have also been uploaded to the AceHacker portal at <https://microsoft.acehacker.com/fixathon> which is your one-stop destination to find all the resources that shall help you conquer the upcoming challenges.
